Thanks for taking the time to reply so much in detail — Jack thought you were to lose a leg but from your letter that doesn't seem to be the case — that "new" artery job was done on my brother (also a Harvard man) and he always maintained the reason his didn't work too well is because the Dr took it from a Yale man. plastic showed be better — I've enclosed $100 which will help wherever you need it - and keep in Touch - I want to help intelligently and be sure it'll give you a breather to do the writing you've planned - we all need one more from you soon — there is an idea being considered that Lane will not represent JER much longer - let's hope it works — not sure Lane knows yet —
